DJ AND MUSIC POLICIES

1. Due to the Venue's proximity to private properties and other 5* hotels and villas, we can only provide music indoors during the wedding reception. While the Wedding Ceremony lasts we can provide soft music. The music's volume can't for any reason exceed the maximum of 60dB from 17:00 till 23:00; since that time till the end of the event, the volume has to be significantly lower. Unfortunately, we have to fully shut down any source of music at 00:45. We do not allow any other DJ to perform in the venue.
2. Live music (piano, guitar, harp etc.) either on the ceremony terrace (during the Wedding Ceremony) or indoors during the Wedding Reception is only allowed upon previous agreement.
3. Our sound system is compatible with most music-reproducing devices such as smartphones, i-phones, tablets and laptops; however, it is not possible to use an Itunes account, a Spotify list or any such music streamer. To ensure the best possible sound outcome we suggest creating a music list of your favorite tracks in a USB stick and providing it to the DJ at the Pre-Wedding Meeting.
4. Our in-house DJ is an experienced professional with an extensive music collection; it's better if the above USB stick just contains some highlight tracks and not an endless list of songs. After all, a great party is the one with all the guests dancing.
